

2.4G 4 zone button LED controller

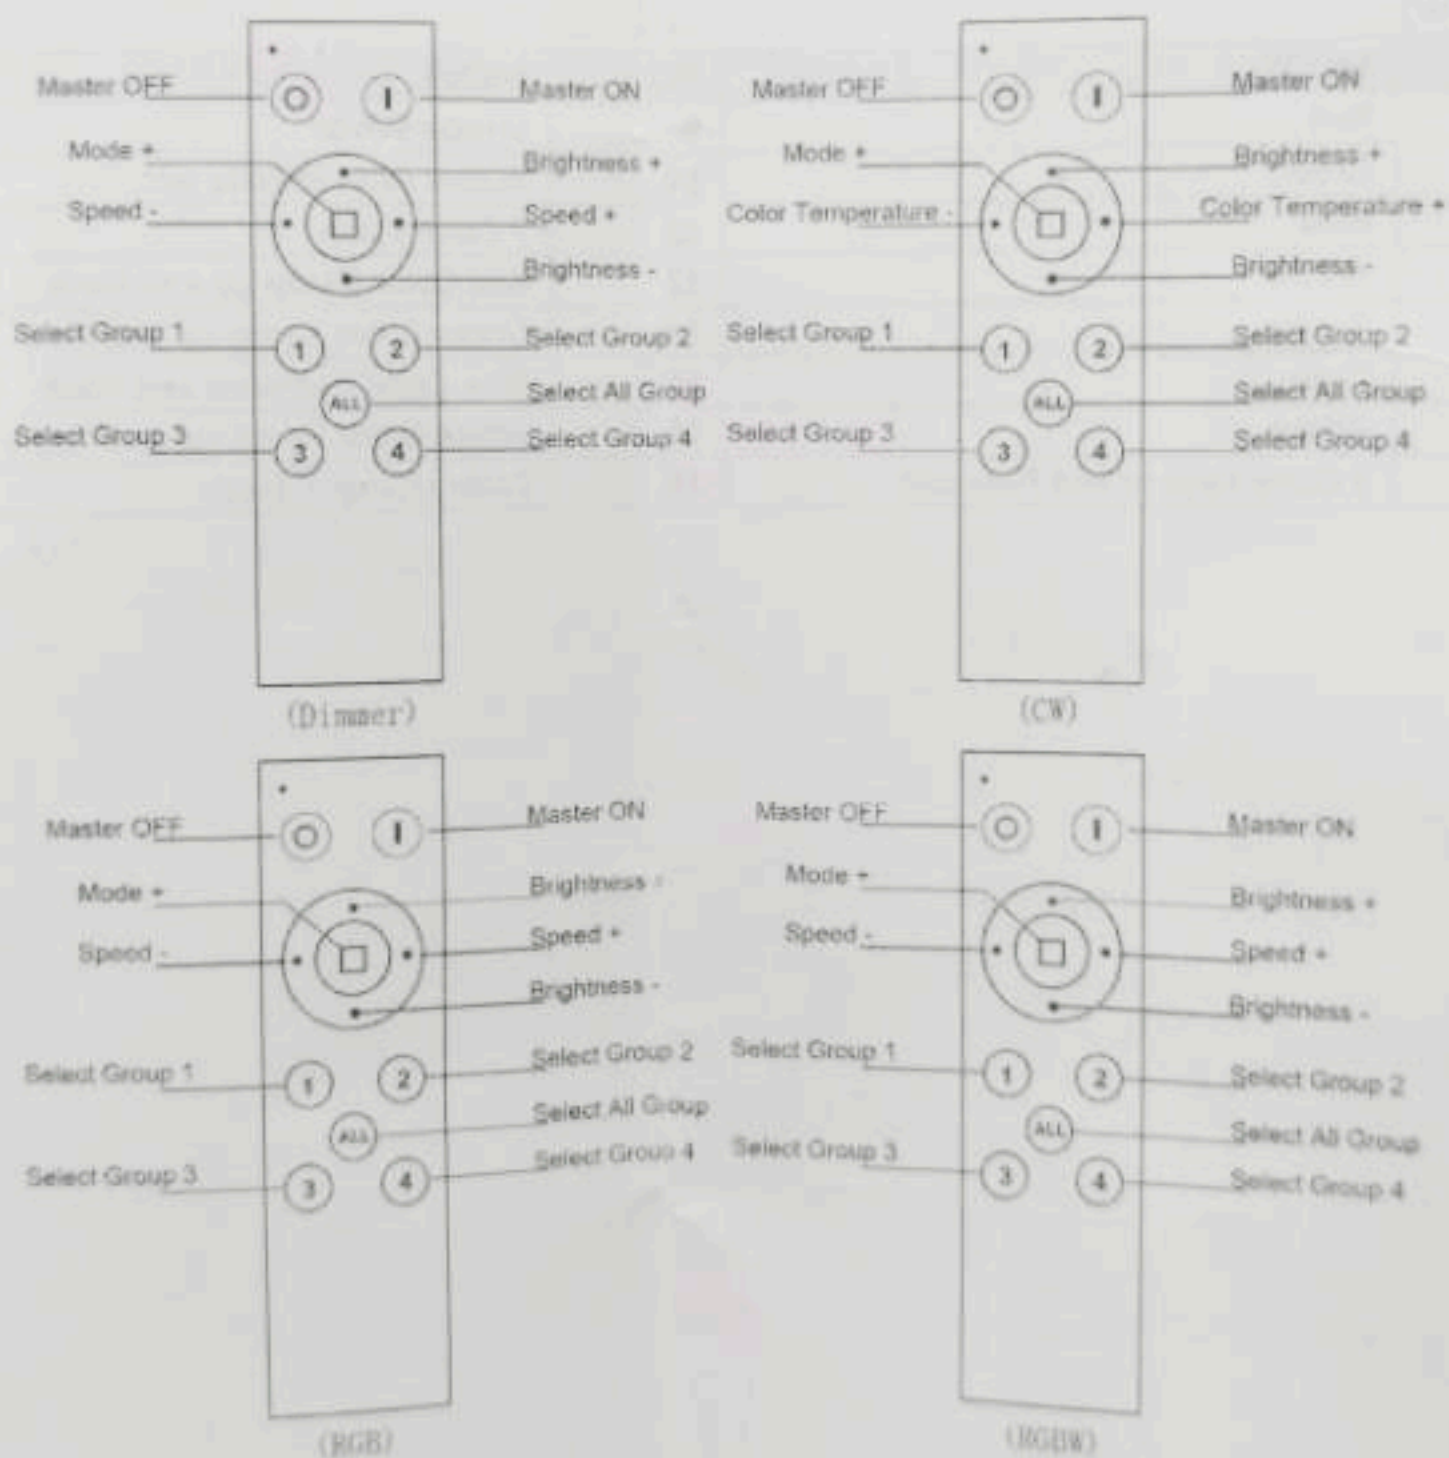

● Product Description:

With the technology of the 2.4G high frequency wireless remote control, this product has the characteristics of low power consumption, long distance transmission, and strong anti-jamming ability, etc. The remote's main function is multi-zone control, Speed+/-, Brightness+/-, modes changing.

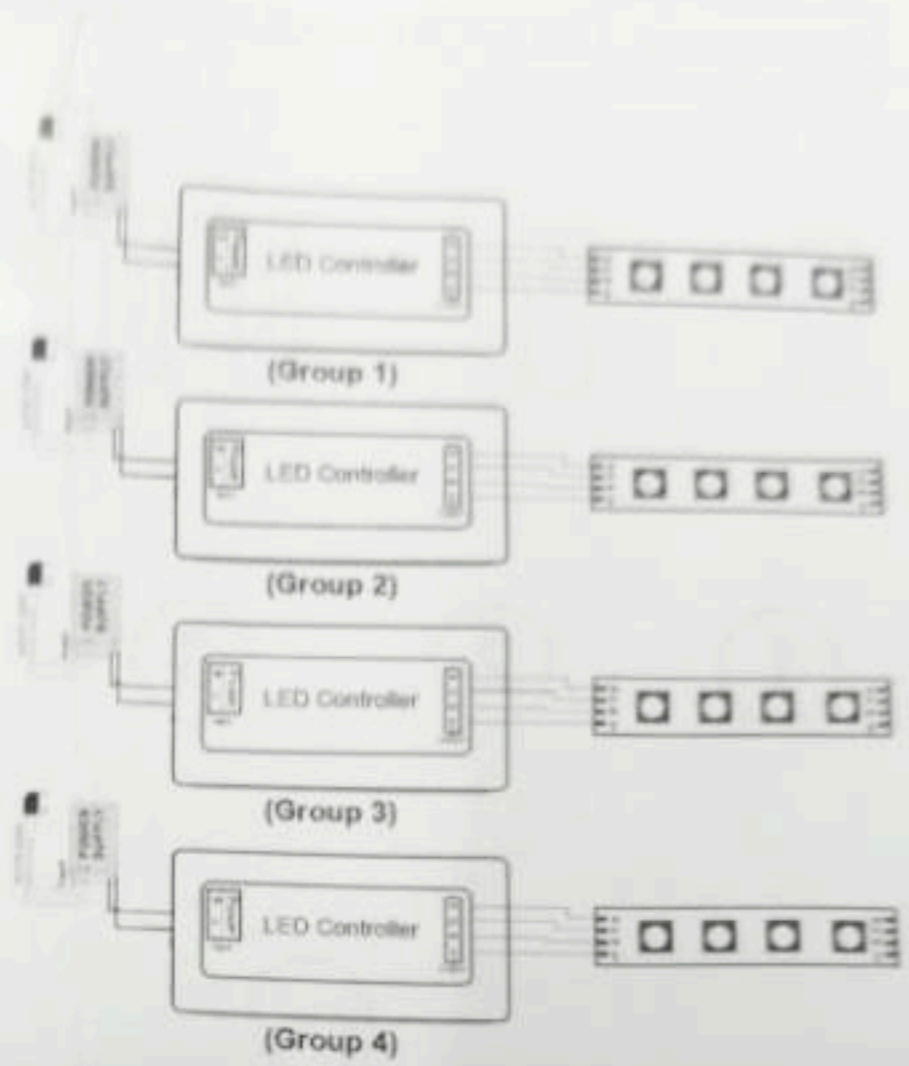

● Technical Parameters:

Item	Parameter
Supply Voltage	3V(1.5V AAA*2 batteries)
Transmission frequency	2400-2483.5MHZ
Control mode	GFSK
Transmission power	6db
Static power consumption	10uA
Remote distance	20-30 meters
External dimension	150*38*14mm

● Function of Keys:

- Typical application:

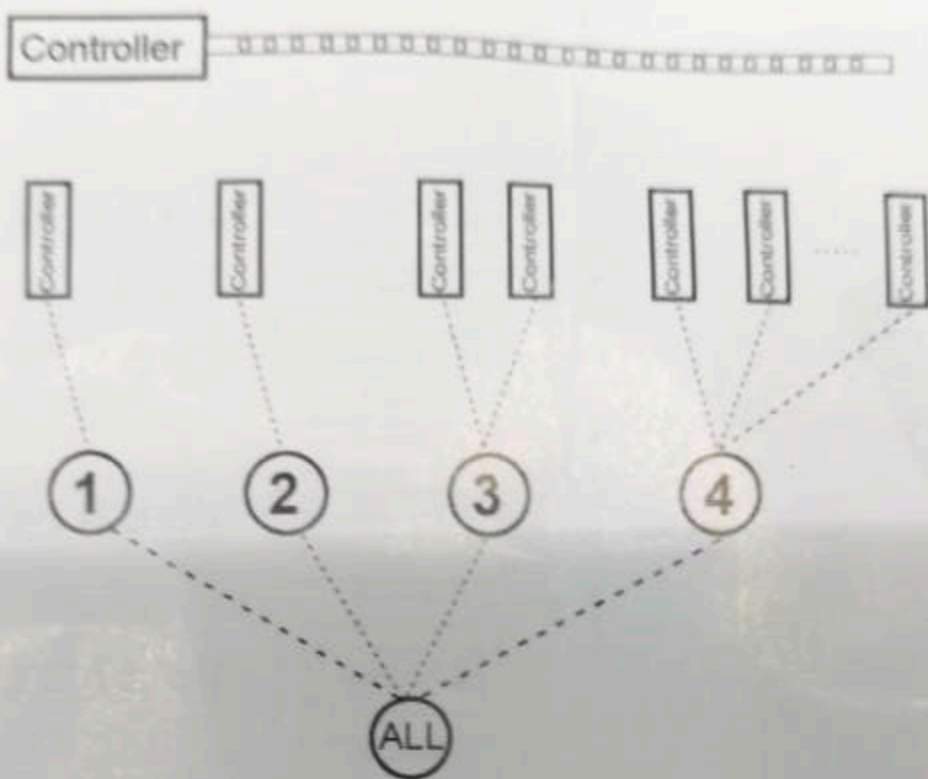

- Cautions:

1. Lead wire should be connected correctly, according to the wire color and the connecting diagram offers.
2. Overload are prohibited.

● **Grouping of several lights:**

You can add lights to a zone on the 4 channel remote by linking the lights to different zones. This way you are completely flexible in creating different group combinations, below you can see some grouping examples.

Link: Long Press any number(1,2,3,4) button of the 4 zones immediately once you switch the light, the link is done once the light blink 3 times.

Unlink: Long press the number(1,2,3,4) button of the linked zone immediately once you switch on the light. The unlink is done once the light blinks 9 times.
